All abstracts should (i) be related to the themes of the conference, (ii) clearly outline the motivation, evidence, methodology and results of the study, and (iii) be written in clear intelligible English with a maximum of 300 words. Please do not include the following in your abstract: figures, photos, illustrations, in-text citations, references, or trade names/brand names.

All abstract authors will be asked to choose (i) up to three themes most applicable to their abstract, (ii) all hazard types most applicable to their abstract, (iii) up to five 'free text' keywords that best describe your abstract (e.g., Singapore, flood, management, databases).

Authors may choose their manuscript to be one of the following modes: (i) No preference, (ii) poster with short oral overview, (iii) Oral only. Please note that we strongly encourage 'Poster with short-oral overview' as a very effective means of interactions on your work.
